AADITI YADAV

Entry-Level Software Engineer

📞 9960546104   @ aaditiyadav29@gmail.com   📍 Wakad, Pune, Maharashtra

SUMMARY

Results-oriented engineer with a strong academic record and technical skills. Proficient in Python software development. Proven ability to work effectively in teams, adapt to new challenges, and communicate complex ideas. Seeking a dynamic environment to drive personal and professional growth.

EDUCATION

Bachelor of Engineering
Savitribai Phule Pune University
📅 08/2020 - 05/2024   📍 Pune, Maharashtra

Higher Secondary School
Purandhar junior college
📅 06/2018 - 05/2020   📍 Maharashtra

Secondary School Certificate
Karmveer bhaurao patil vidyalaya
📅 06/2016 - 05/2018   📍 Maharashtra

PROJECTS

Face Spoofing Detection System

Face Spoofing Detection Expertise Highly skilled in addressing the complex challenge of face spoofing detection, which poses a significant threat due to the advanced spoofing techniques utilized by attackers.

- Developed a face spoofing detection system to identify unauthorized access.
- Created an access detection system to combat sophisticated spoofing techniques.

Electricity Bill Management System

Proficient in designing and developing efficient electricity bill management systems to streamline billing information management.

- Developed a database management project for electricity bill management.
- Utilized Python and MySQL for back-end connectivity and Tkinter for front-end design.

Student Management System

- Developed a project using Django framework
- Designed and implemented frontend using HTML, CSS, and JavaScript
- Utilized Django's MVT architecture to build a robust application
- Managed data using Django's built-in database management system

To Do application

- Successfully developed a TO DO application to manage daily tasks and responsibilities
- Utilized Python and Django framework to design and implement the application
- Implemented features to track accurate deadlines and manage workload effectively

STRENGTHS

💙 **Teamwork and Adaptability**
Ability to work collaboratively in teams and adapt to changing situations.

🏆 **Time Management and Communication**
Strong time management skills and effective communication abilities.

🏅 **Critical Thinking**
Critical thinking and problem-solving capabilities.

KEY ACHIEVEMENTS

🏆 **Poster Presentation Achievement**
Runner up in poster presentation competition.

🪄 **Event Coordination**
Served as an event coordinator in college.

SKILLS

database management	MySQL
oops Python SQL	tkinter
